Hi Brook,

We have received the letter back from SHPO in which they concur that the proposed 19 acre mine won't affect cultural resources.

We are almost ready to approve the permit, but we still need a modified map showing the 19 acres that have been cleared by archaeologists, and the existing disturbances that you are and aren't responsible for. If you re-submit the map already submitted with the 19 acres shown, and not the full 38 acres, then we can issue approval.

Let me know if you have any questions. Thanks.

Peter
